

Dear Member,

In May, you received an announcement regarding the possibility of Stanislaus Farm Supply merging with Valley Wide Cooperative, Inc. ("Valley Wide") of Nampa, ID. Your Board of Directors and management team at Stanislaus Farm Supply have been in discussions over the past several months and things have progressed very smoothly to the point where we now bring the decision to the membership.

Through our discussions we have performed our due diligence and have found Valley Wide to be a very strong cooperative with significant economies of scale and diversified sources of revenue. That said, they are highly focused on delivering benefits to you the members. They hold similar values which focus on supporting members with local representation through a democratic election process of Directors. This ensures that the interests of farmers and ranchers govern your cooperative. The items listed below are the benefits you as a member can expect, as a result of this merger.

- Upon merger, the pay-out of ALL qualified allocated equities (revolving fund).
- Greater size, scale, leverage and increased purchasing power with suppliers.
- Offering new products including propane, energy, and retail products.
- Revenue diversification which reduces risk and supports consistent patronage.

To secure these benefits, a simple majority vote of "YES" is required!
